

reTHREAD

Hey! Its clear-out time.

Lets find the awesome clothes you no longer wear a new, loving home. From the extra space to some extra cash – it all feels great (we promise). Oh, and the planet loves you for it!

Stay in the loop...   @rethreaduk

Its as easy as 1-2-3...

1

Fill your bag

Declutter your wardrobe to the max. Each bag can take around 15 quality items that you no longer wear. Check overleaf for your checklist and smart selling guide.

2

Send it off

Your returns label is on your bag (if sending after 4 weeks, it will need reprinting). Find your nearest of 7,500 drop-off points by searching online for *Collect+ store locator*.

3

You're done!

We handle everything from here to the point you get paid. We'll email you to confirm we've received your items. Keep track of your live listings by following our online shops.

Any questions? Email us and we'll get back to you pronto

Your Checklist

Our 3 point quality standards help build buyer trust. Items that don't pass are returned, donated or recycled.

1: Category

- ✓ Clothing, shoes and handbags (women's, men's & kids)
- * No underwear, socks, jewellery or non-fashion items.

2: Condition

- ✓ Clean, freshly laundered.
- ✓ In new or excellent used condition.
- * No defects (rips, stains or odour), no alterations.
- * No fakes/replicas. We will email you if further proof of authentication needs to be organised.

3: Brand

- ✓ We accept almost any brand from quality high street upwards. See our Selling Guide for examples →
- * No basic high street/budget brands or unbranded items.

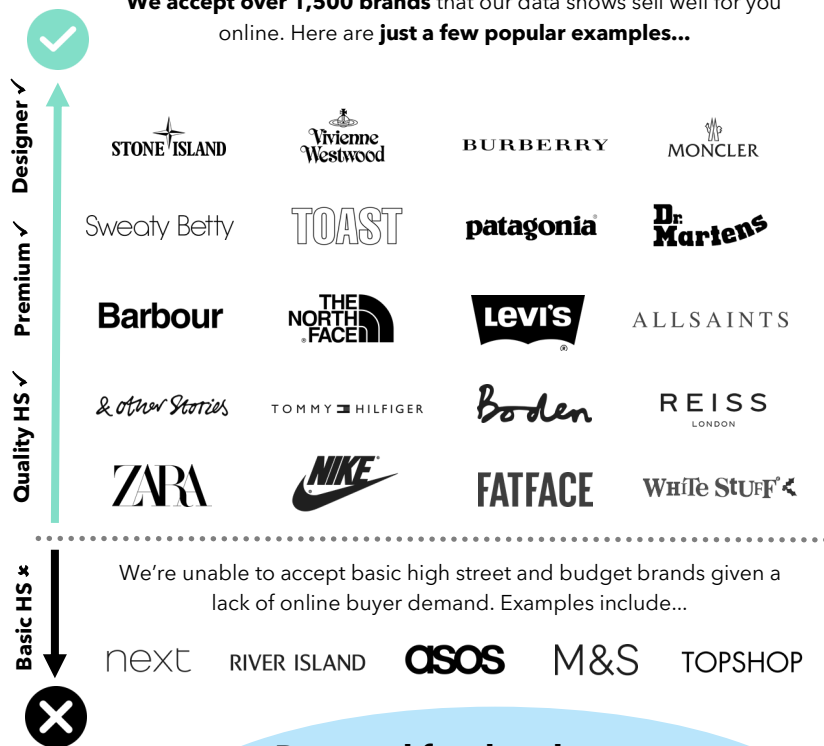

What you earn ↻£↻

Net resale price	Payout %
below £20	40%
£20-£49.99	50%
£50-£99.99	60%
over £99.99	70%

Brands our buyers love

We accept over **1,500 brands** that our data shows sell well for you online. Here are **just a few popular examples...**

Do-good for the planet

Awesome work! By reselling a full bag of clothes **you have saved up to 3.5kg of landfill waste** and displaced the need to manufacture new fast fashion, saving **200kg of CO2e** and **15,000 gallons of water** in the process!
